## Global Index of **RELIGIOSITY AND ATHEISM**

**Only a minority of the world, mostly concentrated in China and Western Europe, claims to be atheists.**

Global Distribution of Self-perceptions:

**Zurich, 27 July 2012** — We have no opinion polling data prior to the 20<sup>th</sup> century, but according to the latest global poll released by WIN-Gallup International, a world-wide network of leading opinion pollsters, atheists are a small minority in the early years of 21<sup>st</sup> century. Only **13%** say they are **atheists**. They are mostly concentrated in East Asia where **47%** of the Chinese and **31%** of the Japanese say they are atheists; and Western Europe, **14%** of whose population says the same. Elsewhere sizeable majorities claim to be **religious**; the global average is **59%**. Another sizeable group claims to be “**not-religious**” but stops short of defining itself as “atheist”. Their global average is **23%**.

The WIN-Gallup International ‘**Religiosity and Atheism Index**’ which measures global self-perceptions on beliefs is based on **interviews with more than 50,000 men and women selected from 57 countries across the globe in five continents. The survey also provides trend data for shifts in attitudes since 2005.**

A world-wide poll conducted by WIN-Gallup International, a network of the world's top most independent pollsters, asked exactly the same question in **57** countries across the globe:

**Question: Irrespective of whether you attend a place of worship or not, would you say you are a religious person, not a religious persons or a convinced atheist?**

In response to this **59%** of the world said that they think of themselves as religious person, **23%** think of themselves as not religious whereas **13%** think of themselves as convinced atheists.

### **TOP 10 ATHEIST POPULATIONS:**

The top ten Atheist populations are the following:

*Percent saying they think of themselves as convinced atheists:*

<b>Countries</b>	<b>A religious person</b>	<b>Not a religious person</b>	<b>A convinced atheist</b>	<b>Don't know / no response</b>
China	14%	30%	47%	9%
Japan	16%	31%	31%	23%
Czech Republic	20%	48%	30%	2%
France	37%	34%	29%	1%
Korea, Rep (South)	52%	31%	15%	2%
Germany	51%	33%	15%	1%
Netherlands	43%	42%	14%	2%
Austria	42%	43%	10%	5%
Iceland	57%	31%	10%	2%
Australia	37%	48%	10%	5%
Ireland	47%	44%	10%	0%

*(11 countries because of 4 tying in at 10%)*

## TOP 10 RELIGIOUS POPULATIONS:

The top 10 religious populations are as following:

*Percent saying they think of themselves as religious person:*

Countries	A religious person	Not a religious person	A convinced atheist	Don't know / no response
Ghana	96%	2%	0%	1%
Nigeria	93%	4%	1%	2%
Armenia	92%	3%	2%	2%
Fiji	92%	5%	1%	2%
Macedonia	90%	8%	1%	1%
Romania	89%	6%	1%	3%
Iraq	88%	9%	0%	3%
Kenya	88%	9%	2%	1%
Peru	86%	8%	3%	3%
Brazil	85%	13%	1%	1%

## INTERESTING VARIATIONS AMONG THE BELIEVERS:

The proportion among believers who say 'I see myself as religious' is higher among Christians compared to Muslims and Jewish populations. Hindus score the highest.

### AMONG BELIEVERS\* SHARE OF 'I AM RELIGIOUS' AND 'NOT-RELIGIOUS'

Religions	'I am Religious'	Not Religious
Christians (all denominations)	81%	16%
Muslims	74%	20%
Jews	38%	54%
Hindus	82%	12%

\* Those who claim to belong to the respective faiths identified below

**RELIGIOSITY IS HIGHER AMONG THE POOR: People in bottom income groups are 17% more religious than those in top income groups.**

It is interesting that Religiosity declines as worldly prosperity of individuals rises. While the results for nations as a whole are mixed, individual respondents within a country show a revealing pattern. If citizens of each of the 57 countries are grouped into five groups, from the relatively poor to relatively rich in their own countries, the richer you get, the less religious you define yourself.

Percent of Population describing itself as RELIGIOUS	
Bottom Quintile (LOW INCOME)	66%
Medium-Low Quintile	65%
Medium Quintile	56%
Medium-High Quintile	51%
High Quintile (HIGH INCOME)	49%

**RELIGIOSITY IS LOWER AMONG COLLEGE EDUCATED: College educated are 16% less religious than those without secondary education.**

The same pattern is applicable to formal Educational Attainment. As formal educational attainment rises, fewer self-describe themselves to be religious:

Percent of Population describing itself as RELIGIOUS	
Less than Secondary Education	68%
Secondary Education	61%
Higher Education	52%

## **TRENDS SINCE 2005: Religiosity drops by 9%, while atheism rises by 3%.**

There is a notable decline across the globe in self-description of being religious. WIN-Gallup International had carried out exactly the same poll seven years ago in 2005. The global average of the 39 countries polled in both waves shows Religiosity Index dropped by 9% during these seven years. Most of the shift is not drifting from their faith, but claiming to be 'not religious' while remaining within the faith. There is however a rise of 3% in atheism as well (see table 3, 4 ahead)

## **TEN COUNTRIES EXPERIENCING NOTABLE DECLINE IN RELIGIOSITY SINCE 2005**

Drop in Religiosity Index

Country	2005	2012	% change in Religiosity
<b>Global Average</b>	<b>77%</b>	<b>68%</b>	<b>-9%</b>
Vietnam	53%	30%	-23%
Switzerland	71%	50%	-21%
France	58%	37%	-21%
South Africa	83%	64%	-19%
Iceland	74%	57%	-17%
Ecuador	85%	70%	-15%
United States	73%	60%	-13%
Canada	58%	46%	-12%
Austria	52%	42%	-10%
Germany	60%	51%	-9%

The poll was conducted by the oldest and the largest network of opinion pollsters affiliated with WIN-Gallup International in **57** countries covering more than **73%** of the world's population.

**Commentary by Jean-Marc Leger** (President WIN-Gallup International, the network which runs the Annual barometer of opinions since 1977)

“Despite the immense impact of technology and an emphasis on worldly affairs, the 21<sup>st</sup> century overwhelmingly espouses a religious faith and atheism is in a minority. It would be wonderful if we had data from a hundred years ago to compare with. Unfortunately there were no global opinion polls at the time. We take pride in saying that with rising number of global polls on social issues, our future generations will be less handicapped in such analyses”

### **Methodology:**

The global barometer of hope and despair is an annual tradition initiated by and designed under the chairmanship of Dr. George Gallup in 1977. It is conducted every year since then. This year it was carried out by associates of WIN-Gallup International in **57** countries around the world.

### **Sample Size and Mode of Field Work:**

A total of **51,927** persons were interviewed globally. In each country a national probability sample of around 1000 men and women was interviewed either face to face (35 countries; n=33,890), via telephone (11 countries; n=7,661) or online (11 countries; n=10,376). Details are attached. The field work was conducted during November 2011- January 2012. In general the

error margin for surveys of this kind is **+3-5% at 95% confidence level.**

**Weighting:**

The global average has been computed according to the share of the covered adult population of the surveyed countries.

## List of Tables and Figures (see Ahead)

Table 7:	Complete Results to Question, Region-wise	(p.17-19)
Table 8:	Complete Results to Question, by selected Demographics	(p.20-21)
Appendix:	Summary Chart on Methods and List of Countries	(p.22-24)

### What is the **Religiosity and Atheism Index**?

The **Religiosity Index** represents the percentage of the population who self-describe themselves as 'a religious person' in the question worded as: **Irrespective of whether you attend a place of worship or not, would you say you are a religious person, not a religious persons or a convinced atheist?**

**Atheism Index** represents the percentage of population who self-describe themselves as convinced atheists in the Question reported above.

## TREND IN RELIGIOSITY INDEX AMONG 39 COUNTRIES SURVEYED IN BOTH WAVES

(2005 - 2012)

Country (Rank order by 2012, High to low)	2005	2012	% change in Religiosity
<b>Global Average</b>	<b>77%</b>	<b>68%</b>	<b>-9%</b>
Ghana	96%	96%	0%
Nigeria	94%	93%	-1%
Macedonia	85%	90%	5%
Romania	85%	89%	4%
Kenya	89%	88%	-1%
Peru	84%	86%	2%
Pakistan	78%	84%	6%
Moldova	78%	83%	5%
Colombia	83%	83%	0%
Cameroon	86%	82%	-4%
Malaysia	77%	81%	4%
India	87%	81%	-6%
Poland	85%	81%	-4%
Serbia	72%	77%	5%
Italy	72%	73%	1%
Argentina	80%	72%	-8%
Ukraine	70%	71%	1%
Ecuador	85%	70%	-15%
Lithuania	75%	69%	-6%
Bosnia and Herzegovina	74%	67%	-7%
South Africa	83%	64%	-19%
United States	73%	60%	-13%
Bulgaria	63%	59%	-4%
Iceland	74%	57%	-17%
Russian Federation	57%	55%	-2%
Finland	51%	53%	2%
Korea, Rep (South)	58%	52%	-6%
Spain	55%	52%	-3%
Germany	60%	51%	-9%
Switzerland	71%	50%	-21%
Canada	58%	46%	-12%
Netherlands	42%	43%	1%
Austria	52%	42%	-10%
Hong Kong	-	-	-
France	58%	37%	-21%
Vietnam	53%	30%	-23%
Turkey	-	-	-
Czech Republic	22%	20%	-2%
Japan	17%	16%	-1%

**Note on Turkey and Hong Kong:** Both Turkey and Hong Kong show notable change since 2005. These changes are not from a faith to atheism but a shift from self-description of being 'Religious' to 'Not Religious'. We have requested researchers in both countries to investigate reasons which might explain this extra-ordinary shift.
